TANIUM.

Tanium regularly eliminates the need for single point solutions

Silos don't work. That's why Tanium's Converged Endpoint Management (XEM) platform provides a single control pane that locates all data, patches devices in seconds, implements critical security controls, and provides ongoing compliance.

Where and how to implement Tanium

Tanium XEM Platform

Replaces	Partially Replaces	Complements
BIGFIX	tenable	Microsoft
ivanti	Qualys	CROWDSTRIKE
tripwire	RAPID7	Carbon Black.
AUTOMOX	Symantec	SentinelOne
VARONIS	DIGITAL GUARDIAN	AXONIUS
altiris	bmc	FireEye McAfee
		TREND MICRO
		OSSEC

IT operations, risk and compliance, and security

Key takeaways

How Tanium XEM optimizes your budget

IT Operations

- Discovers more
- Intergrated platform from the cloud
- Real-time control

Risk

- Scan more IPs in real-time
- Patch and reporting
- Accurate scan completions

Security

- Query all endpoint data in real time
- Remediate thousands of endpoints simultaneously
- Remove attackers faster than they can attack you back

Only Tanium can provide certainty for the visibility, control, and remediation over your entire IT estate

Tanium offers an endpoint management and security platform built for the world's most demanding IT environments. Many of the world's largest and most sophisticated organizations — including nearly half of the Fortune 100, top retailers and financial institutions, and multiple branches of the U.S. Armed Forces — rely on Tanium to make confident decisions, operate efficiently, and remain resilient against disruption.
