TANIUM.

WORKING WITH TANIUM: CORE

COURSE DESCRIPTION

Working With Tanium: Core includes a series of dedicated sessions (training bundle) covering the Tanium Platform/Console, Interact, Trends, and Connect modules. Upon completing this course, you will be able to perform functions such as configuring and troubleshooting the Tanium Platform and its core modules.

Participants will explore business use cases and learn how to use module abilities to achieve specific results through analyzing endpoints, visualizing trends, and exporting data, as well as configuring settings and integrations. Interactive lab access will be provided for hands-on activities.

DELIVERY OPTIONS

Instructor-Led Training (ILT)

Virtual Instructor-Led Training (VILT)

Web-Based Training (WBT)

ADDITIONAL RESOURCES

- Tanium Solutions & Bundles
- Tanium Knowledge Base
- Tanium Resource Center

⏰ Delivery options and duration

ILT/VILT: 2 days | WBT: 4-6 hours

🎧 Languages

English, Japanese

📋 Prerequisites

TCO Certification is recommended. Certifications | Tanium to 'TCO Certification".

👥 Target audience

This course is intended for experienced Tanium operators who are ready to expand their knowledge of the Tanium core platform, and desire to become more proficient in the operation and primary use cases of the Tanium Console, Tanium Interact, Tanium Trends and Tanium Connect.

🪪 Registration information

This training course is available to purchase for new and existing customers. For information on our training courses, or to receive a quote, please contact your Tanium/Partner Representative. If you are uncertain of who your representative is, please reach out to training@tanium.com.

WORKING WITH TANIUM SERIES

Working With Tanium: Core sets the foundation for two specialized learning paths: Endpoint Management and Endpoint Risk & Security. Each learning path includes a series of dedicated sessions (training bundle) diving deeper into individual Tanium modules in preparation for advanced-level certifications.
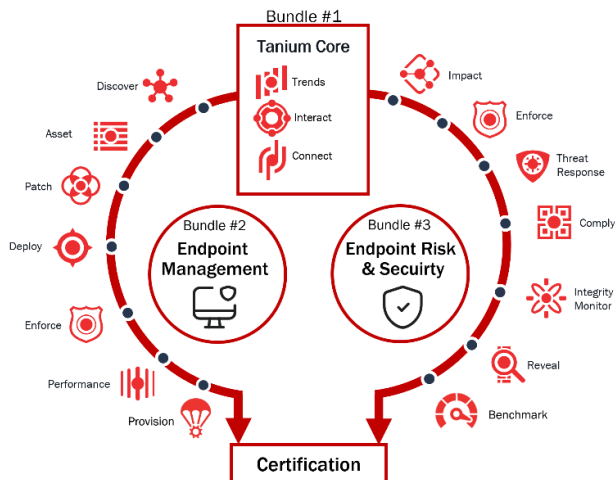

COURSE OBJECTIVES

PLATFORM & CONSOLE

- Compare the different Tanium Platform architectures
- Install Client Management
- Deploy Endpoint Configuration
- Describe the Console value proposition
- Describe the key Console components
- Install and configure the Console/modules
- Troubleshoot common errors

INTERACT

- Describe the Interact value proposition
- Identify Interact business use cases
- Describe the key components of Interact
- Use and configure Interact
- Troubleshoot common errors

TRENDS

- Describe the Trends value proposition
- Identify Trends business use cases
- Describe the key components of Trends
- Use and configure Trends
- Troubleshoot common errors

CONNECT

- Describe the Connect value proposition
- Identify Connect business use cases
- Describe the key components of Connect
- Use and configure Connect
- Troubleshoot common errors

COURSE OUTLINE

PLATFORM & CONSOLE

- Tanium Cloud architecture
- Tanium Appliance architecture
- Tanium Windows architecture
- Client Management
- Endpoint Configuration
- Console overview
- Managing the Console
- Customizing the Console
- Troubleshooting the Console

INTERACT

- Value proposition
- Components
- Business use cases
- Managing Actions
- Managing RBAC
- Tanium Data Service (TDS)
- Initial troubleshooting
- Common issues

TRENDS

- Value proposition
- Components
- Business use cases
- Sources and data collection
- Exporting and importing Trends
- Publishing boards
- Initial troubleshooting
- Common issues

CONNECT

- Value proposition
- Components
- Connect sources
- Connect destinations
- Connection frequency
- Reference variables
- Filtering data
- Order of operations
- Business use cases
- Creating an event for failed connection runs
- Common issues
