

Converge Paris Agenda						
09:00 - 09:30	Registration & Welcome coffee					Tanium Certifications TCO, TCA, TCSD, TCPEM
09:30 - 11:00	Technical Lab How to Operate Tanium Like a Pro for Patching and Software Maintenance	Technical Lab Hidden Exposures: Unmasking Vulnerabilities and Software Ingredients With Tanium SBOM and Comply	Technical Lab Workflows and Automation	Product Sessions DEX & Incident Response Risk & Compliance		
11:00 - 11:30	Break					
11:30 - 13:00	Technical Lab Workflows and Automation	Technical Lab How to Operate Tanium Like a Pro for Patching and Software Maintenance	Technical Lab Hidden Exposures: Unmasking Vulnerabilities and Software Ingredients With Tanium SBOM and Comply	Product Sessions DEX & Incident Response Risk & Compliance		
13:00 - 14:00	Lunch					
14:00 - 15:30	Technical Lab Hidden Exposures: Unmasking Vulnerabilities and Software Ingredients With Tanium SBOM and Comply	Technical Lab Workflows and Automation	Technical Lab How to Operate Tanium Like a Pro for Patching and Software Maintenance	Product Sessions Autonomous Endpoint Management		
15:30 - 16:00	Break					
Converge Keynote						
16:00 - 16:20	Certainty in Uncertain Times Dagobert Levy, VP EMEA South, Tanium					
16:20 - 16:50	Confidence: Path and Platform to What's Possible Steve Daheb, CMO, Tanium and Richemont					
16:50 - 17:20	Facilitating the Future: Customer stories with Pluxee and Inetum					
17:20 - 17:55	Tanium Innovation: The Future is Autonomous Matt Quinn, CTO, Tanium & Harman Kaur, VP AI, Tanium					
17:55 - 18:15	Fireside Chat Dagobert Levy, VP EMEA South, Tanium & Jean-Marie Letort, Head of Cybersecurity, Microsoft France					
18:30 - 00:00	Converge Evening Party					

Lab Descriptions

Lab 1 : How to Operate Tanium Like a Pro for Patching and Software Maintenance: In this lab you will learn how to take your Tanium operations for patching and 3rd party updates to the next level. This lab will focus on Tanium Patch, Deploy, and Comply being used in a stepped maturity program designed to move organizations towards a mature automated approach, maximizing control and effective use of manpower. Pre-req: None - Duration: 90 mins

Lab 2: Hidden Exposures: Unmasking Vulnerabilities & Software Ingredients with Tanium SBOM & Comply: In this lab you will learn best practices for efficiently scanning your enterprise for vulnerabilities. You will identify vulnerable libraries that you may not have known existed within products you commonly use. Once the systems are identified, you will apply updates to the affected products to remediate the vulnerabilities. Finally, you will use Asset and Reporting to showcase vulnerable versions and the remediation efforts you have completed. Pre-req(s): Working knowledge of Tanium functions. Understanding of vulnerability and Patch management concepts. Working knowledge of Tanium Patch and Deploy modules - Duration: 90 mins

Lab3: Workflows and Automation Tanium: This lab provides an intuitive, no-code workflow builder that simplifies Tanium platform interactions into logical and repeatable actions to solve customers' key use cases. In this lab, you will explore the features of Workflows and Automation, with a specific focus on creating workflows, running playbooks, and discussing best practices for automation within the Tanium platform. Pre-req: None - Duration: 90 mins

Certifications

- TCO - Tanium Certified Operator
- TCA - Tanium Certified Administrator - requires a valid TCO
- TCSD - Tanium Certified Specialist Cloud Deployment - requires a valid TCO
- TCPEM - Tanium Certified Professional Endpoint Management - requires a valid TCO

Duration : 105 min + 20 min (extra time for language) - 125 min
