Tanium for Continuous Essential 8 Compliance

Gain certainty in Essential 8 compliance: Tanium's automated continuous auditing changes the game in securing your business.

Simplify Essential 8 compliance audits with Tanium. Achieve efficiency and confidence in identifying non-compliance risks. Experience rapid and continuous audits with real-time risk mitigation.

Grappling with Essential Eight compliance and remediation?

CIOs and CISOs countrywide are struggling to meet Essential Eight compliance maturity. The use of manual processes and disparate tools for audits and threat-resolution cannot deliver continuous, comprehensive views of device inventories and compliance levels, potentially leaving threats undiscovered for weeks or months. It's no wonder that executives hesitate to put their signature on audit reports.

Essential 8 Mitigation Strategies – OS Patching

Essential 8 Mitigation Strategies – User Application Hardening

94%

In 94% of organisations, up to 20% of endpoints are unknown.
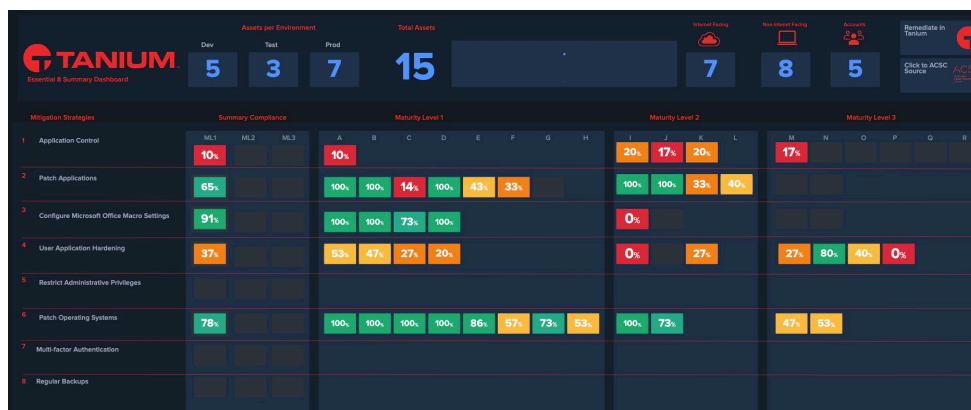

3x

more security incidents are likely to occur since the pandemic due to lack of visibility into cloud and other assets.
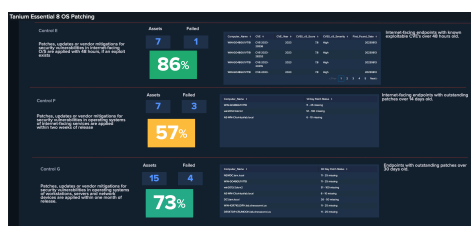

5

of the Essential Eight controls are directly addressed by Tanium, and the data needed for the other 3 controls can be added to the Tanium dashboard.
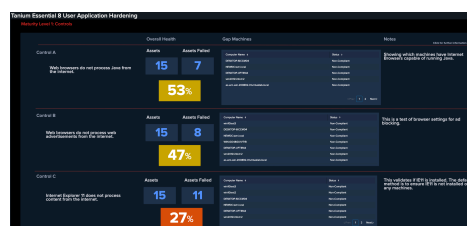

38%

of technology waste consists of unused licenses for companies that don't have visibility into their software.

tanium.com

Say goodbye to manual auditing: Tanium delivers real-time, automated compliance.

Tanium provides the tools and insights needed to align your organisation's policies and processes with Essential Eight recommendations, maintain a complete and accurate compliance assessment of every endpoint in your environment, and quickly resolve any compliance issues.

Choose Tanium to proactively manage and reduce risk with continuous and complete endpoint audits, centralised compliance policies and processes, actionable insights about policy departures, and real-time enforcement of controls.

- Achieve certainty and confidence in your auditing results
- Mitigate risk in real-time.
- Provide a single source of compliance-audit truth for all teams.

- Maintain visibility and control over all devices.
- Reduce audit and labour costs.

Streamline your Essential Eight compliance efforts with Tanium's automation.

- **Maintain continuous, up-to-date audits of all of your endpoints** so you know if your business units are compliant with Essential Eight and other security policies, every day.
- **Identify non-compliant endpoints** with continuous discovery and categorisation of managed and unmanaged devices.
- **Protect your agencies against cyber threats and compliance breaches** with real-time, actionable data that identifies policy departures as well as controls for immediate enforcement.

- **Operate with a unified view of endpoints** rather than incomplete, fragmented, or conflicting reports.
- **Save time and money** by conducting comprehensive compliance audits in just minutes with automation rather than manual processes and disparate tools that can require months of team effort.

Tanium, the industry's only provider of Converged Endpoint Management (XEM), leads the paradigm shift in legacy approaches to managing complex security and technology environments. Only Tanium protects every team, endpoint, and workflow from cyber threats by integrating IT, Compliance, Security, and Risk into a single platform that delivers comprehensive visibility across devices, a unified set of controls, and a common taxonomy for a single shared purpose: to protect critical information and infrastructure at scale. More than half of the Fortune 100 and the U.S. armed forces trust Tanium to protect people; defend data; secure systems; and see and control every endpoint, team, and workflow everywhere. That's the power of certainty.
