

GETTING STARTED WITH TANIUM

COURSE DESCRIPTION

This course introduces the Tanium platform's unique architecture and benefits, along with the key functionality of its foundational modules, including asking questions, analyzing data, and connecting with external destinations. You will also receive a brief preview of additional Tanium modules available to support more advanced use cases.

This course features real-world scenarios, hands-on practice scenarios, and interactive knowledge checks.

DELIVERY OPTIONS

ADDITIONAL RESOURCES

- [Tanium Solutions & Bundles](#)
- [Tanium Knowledge Base](#)
- [Tanium Resource Center](#)

Delivery options and duration

ILT/vILT: 8 hours | WBT: 2-3 hours

Prerequisites

None.

Target audience

This course is intended for anyone looking to build on their Tanium knowledge of core Tanium features and functions.

Registration information

This training course is free of charge for current Tanium customers. However, the Tanium Learning Center access is protected, and use of an enrollment key is required for all first time users.

Please click [here](#) to learn more about how to access this training on our Tanium Learning Center.

COURSE OBJECTIVES

- Explain Tanium's unique linear chain architecture
- Create basic queries to gather information about your environment
- Deploy actions to enact changes on endpoints
- Generate reports and visualize information
- Connect with external destinations
- Identify additional Tanium modules to support a wide variety of workflows and use cases

COURSE OUTLINE

THE TANIUM PLATFORM

- What is Tanium?
- The Tanium ecosystem
- Deployment types
- The Tanium Console
- Customizing the Console
- Module Overview pages
- Role-based access control
- Log in to and navigate the Tanium Console

INTERACT

- What is Interact?
- Asking questions
- Question results
- Drill down and merge
- Interact content
- Deploying actions
- Packages
- Action types
- Computer and action groups
- Scheduled actions and action history
- Adaptive actions

TANIUM AUTOMATE

- What is Automate?
- Interacting with Tanium Automate
- Using Automate playbooks

TANIUM REPORTING

- What is Reporting?
- Reports
- Dashboards
- Labels

TANIUM CONNECT

- What is Connect?
- Sources and destinations
- Creating a connection

TANIUM SOLUTIONS

- Unleashing the power of the Tanium Platform
- Gaining Visibility
- Applying Control & Remediation
- Managing Endpoints
- Enhancing the Employee Experience
- Managing Risk & Compliance
- Responding to Incidents
- Solution area summary
